personnel

Not available

For emergency responders Not available.

6.2. Environmental precautions Do not discharge into drains, water courses or onto the ground. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

Fine particles can form an explosive mixture with air, so make sure there is no fire around you. If there is a fire, remove it and then wipe it off with a cloth moistened with water to prevent the toner from scattering as much as possible. If it is unavoidable to use a vacuum cleaner, be sure to use a

vacuum cleaner with dust-proof and explosion-proof safety measures.

Carbon black contained in this product is classified to Group 2B of IARC as the result of inhalation Carcinogenicity

test in use of rat.

This is due to the fact that rat alone showed lung tumor in the animal experiment under very high

concentration.

During a normal use of this product, design of the cartridge proves it impossible to have powder

carbon black released to the air.

Intake from the mouth and skin does not show carcinogenicity.
